Kamado Kradle & Big Kahuna Release Sheet

Islands By Design (IBD) is proud to introduce our newest release for the outdoor cooking enthusiast, THE KAMADO KRADLE and THE BIG KAHUNA. Each of these products are designed to serve the needs of the consumer who uses a Kamado style grill for the outdoor cooking experience. The Kamado has become a very large part of the retail sales effort of many retailers throughout the USA, these units a very popular item and one that has almost a cult following.

IBD feels that the design and providing of an outdoor cooking station to house these specific units with the requirements that a Kamado owner will enjoy is a product that can have immense sales. To this end Islands By Design is pleased to introduce to you our most recent products for release:

The Big Kahuna shown above with the Exclusive IBD Grantech finish, a Kamado, and granite.

*Supplier to the trade of quality components and training for Outdoor Room Components
Recognized as one of the leaders in the OUTDOOR ROOM in the USA!
DESIGNS / COMPONENTS / TRAINING / FINISHED ISLANDS!
Made in America by American Craftsmen*

The 84” Kamado Kradle Largo shown above with an Oval Kamado, raised dining ledge, a slide out cooler drawer, optional lining of the drawer with aluminum, and granite top.

DETAILS OF THE KAMADO KRADLE

The Kamado Kradle is a unit with three distinct models with two sizes of each, these are illustrated as follows:

SAN JUAN

20-1054, also available, features a 54” width and a caveat width of 32”

Unit is show with the Granitech finish

MONTEGO

20-1066 shown features a 66" width and a caveat width of 26"

20-1072 also available, features a 72" width and a caveat width of 32"

The photo shows the 20-1066 with several options including Granitech finish, tile top and dress out band, drawer, and the lower opening lined with an aluminum lining

LARGO

20-1084 shown features an 84" width and a 32" caveat width

20-1078 also available features a 78" width and a 26" caveat width

The photo shows the 20-1084 with the options including, Grantech finish, a pull out cooler drawer, the upper opening lined with aluminum, and granite top.

HOW TO ORDER YOUR KAMADO KRADLE

The Kamado Kradle is manufactured as a Ready To Finish (RTF) product or can be shipped with factory finish. Please review the following for how a Kamado Kradle can be manufactured to your needs.

- **Ready To Finish (RTF) is a unit shipped as illustrated above using the time proven IBD framing and sheeting system; this can then be field finished per the needs of the client.**
- **The San Juan is shipped with a caveat opening only.**
- **The Montego and the Largo are both shipped standard with the caveat opening to the left and also with two openings to the right, both openings will be shipped lined with the IBD Hardieboard lining as has been a common option on IBD custom islands.**
- **All Kamado Kradles have a standard height of 36 ½” in the RTF format.**
- **The size of the two openings to the right will be built as specified on the order; if these are to house certain doors please provide the door specifications on the order.**

OPTIONS FOR THE KAMADO KRADLES

In order to provide the product that your client wants desired, the following is a list of options that can be provided at the factory for inclusion with the Kamado Kradle

*Supplier to the trade of quality components and training for Outdoor Room Components
Recognized as one of the leaders in the OUTDOOR ROOM in the USA!
DESIGNS / COMPONENTS / TRAINING / FINISHED ISLANDS!
Made in America by American Craftsmen*

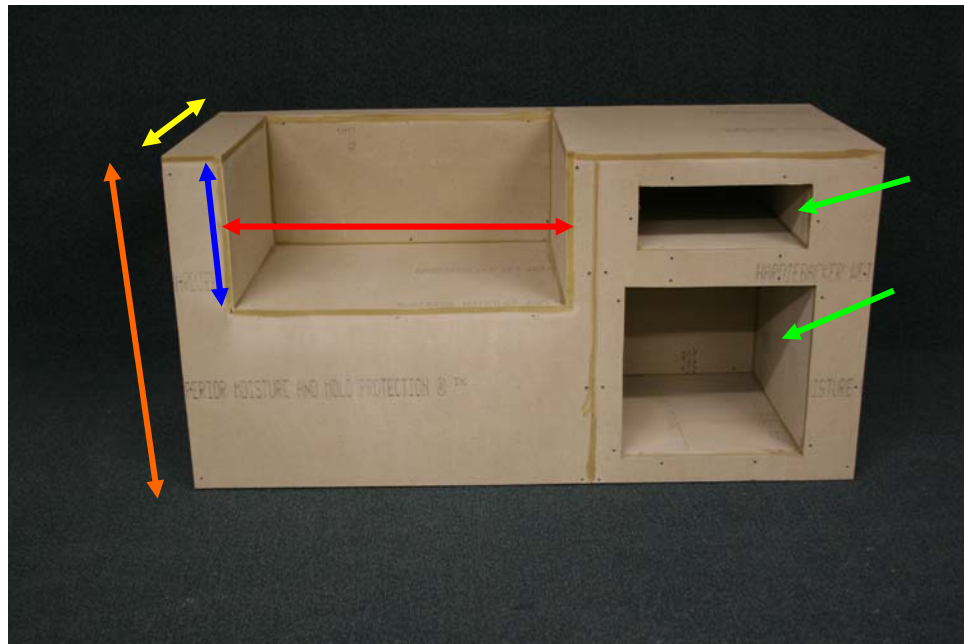

- OPTIONS SHOWN**

 DESIGNS / COMPONENTS / TRAINING / FINISHED ISLANDS!
 Made in America by American Craftsmen*

- **Orange arrow shows the standard height of the unit which is 36 ½”, runners add approximately 1” to the height of the unit, custom heights of the Kamado Krادles is available, please alert factory when custom heights are specified.**
- **Blue arrows shows the standard drop of the caveat that is 18”, custom drop sizes are available, please alert the factory when ordering of this need.**
- **Yellow arrows show the overall depth of the unit which 29”, custom island depth is available; please alert the factory of your needs.**
- **Green arrows show the two standard openings on the Montego and the Largo please specify the exact size required when placing the order. Maximum door width on a Montego is 20, maximum door width on a Largo is 30”.**

KAMADO UNITS THAT CAN FIT IN KRADLES

The IBD Kamado Krادle will fit all Kamados on the market with the exception of the Extra Large Big Green Egg, this is due to the depth of the Extra Large Unit, IBD can build a custom unit to house the Extra Large BGE if you have a need for this unit.

All of the round Kamados on the market will fit in the 26” wide smaller caveat; the small Oval Primo can also be housed in this unit. The Large Oval Primo require the larger caveat to house the unit, the larger caveat will adequately house all of the round units.

The previous photos show the 84” Larger with the 32” caveat housing a round Kamado on the left and a Large Kamado on the right

RUNNERS

*Supplier to the trade of quality components and training for Outdoor Room Components

 DESIGNS / COMPONENTS / TRAINING / FINISHED ISLANDS!
 Made in America by American Craftsmen*

A new option now available on all IBD products are runners that are secured to the bottom of the module. These are installed approximately ½” recessed from the exterior of the Hardiboard and enable the unit to be slid on the surface without damage to the finish material. This is an option suggested for any Kamado Kradle to be factory finished with Granitech or any island to be finished in the field with a thin finish material such as stucco.

The skid runners will add approximately 1” of height to all Kamado Kradles.

DETAILS OF THE BIG KAHUNA

The Big Kahuna is a great new design being released for the 2010-selling season from Islands By Design. The Big Kahuna is built on the popular Concord Curved design, as has been a popular custom island choice over the past few seasons. The unit can be shipped with or without a raised dining ledge. The Big Kahuna will house any of the Kamado units presently available with the exception of the Extra Large Big Green Egg (yes the Large Oval Unit will fit in the standard Big Kahuna). The unit features a standard umbrella mount and cover plate.

Kamado Kradle shown finished with Granitech housing a round Kamado and field supplied granite.

The Big Kahuna finished with Granitech with an optional field provided granite platform under the Kamado.

The big Kahuna can be shipped with or without the raised dining ledge as required for the installation.

SUMMARY

In summary, the Kamada Kradle and the Big Kahuna add a new dimension to the outdoor cooking experience for the consumer who uses the Kamado as their outdoor cooking appliance of choice. There are a multitude of options available and with the new Granitech finish provides a finished product to the outdoor kitchen that will surely satisfy the consumer.
